

HealthCard

Laboratory information system

● INTEGRATES WITH RADIUM

● CLOUD · AWS

BILLING · SAMPLES · RESULTS · VERIFICATION · AUTHORISATION · REPORTS

One platform for the whole laboratory across branches: registration and billing, samples, results, verification and authorisation, through to the final report in the patient's inbox. HealthCard integrates with Radium, so lab and imaging results sit in one patient record.

Multi-branch

Branch-wise rates, discounts and test transfer between labs.

Controlled sign-off

Only verified, authorised reports are released.

Secure delivery

Password-protected PDF by email, SMS link or WhatsApp.

CONTROLLED WORKFLOW

Every report passes the same gates.

01 Bill Registration and billing with field checks; a unique ID per transaction.	02 Collect Collection, packet transfer and receiving.	03 Enter Manual or analyser results; incomplete results stop here.	04 Verify Lab and doctor verification by permitted users.	05 Authorise Test-wise authorisation before release.	06 Deliver Protected PDF to the registered contact.

FRONT OFFICE

Counter & billing

- Registration, cash and credit billing
- Payments, cancellations, reprints
- Final report printing

LABORATORY

Results & sign-off

- Manual and analyser-interface results
- Laboratory and doctor verification
- Report editing, test-wise authorisation

SPECIALITIES

Beyond routine

- Microbiology: culture entry, approval, reporting
- Histopathology: biopsy, autopsy, cytology, IHC, double marker
- Genetics: configuration, data upload, approval

ACCOUNTS & ADMINISTRATION

Every rupee, every branch

- Business and collection reports by hospital, institution, doctor, branch, department, test, area and payment mode
- Cash, credit, card and UPI collections and outstanding balances
- Daily, monthly and yearly analysis: gross, discounts, net, package and test-wise
- Adjustments, cancellations and approvals with controls
- Daily cash statements and petty cash

BUSINESS MANAGEMENT

The partners behind the volume

- Business dashboard
- Hospitals, institutions and referring doctors, with special rates
- Packages and health camps
- Credit clients and client routes
- Registers: samples, pending, QC, repeats, cancellations, result issue

SECURITY & TRACEABILITY

Validated, secured and traceable.

Software validation for the core workflow is documented to support your laboratory's NABL accreditation.

ACCESS

- Password login
- Role-based permissions
- Session management

CORRECTIONS

- Authorised cancellation only
- Corrections re-verified and re-authorised
- Cancelled reports stay traceable

DELIVERY

- Password-protected PDF
- Email and SMS download link
- WhatsApp on request

AUDIT

- Unique ID per transaction
- Email and SMS logs
- Time-stamped activity
