

ReVue

Global Radiology Second Opinion Clinic

● SEPARATE SERVICE

● IN USE AT RUBY HALL CLINIC

UPLOAD • ASSIGN • REPORT • DELIVER • MONETISE

A multi-institutional, cloud-native platform to manage, view and report radiology studies with zero geographical limits. ReVue gives a hospital the infrastructure to run, and monetise, a second-opinion service, and gives patients expert clarity.

★ Winner • Best Med Tech / Health Tech Innovation • CII Hospital Tech 2026

THE PROBLEM

- Second opinions are slow, fragmented and not standardised
- Radiology expertise is limited by geography
- No unified upload, assign, report and deliver workflow

THE OPPORTUNITY

- Rising demand for second opinions and sub-specialty reads
- Growing cross-border consultations
- Hospitals lack the digital infrastructure to meet it, and to charge for it

HOW IT WORKS

From upload to report, in one flow.

01

Upload

Patient uploads the DICOM study, history and payment.

02

Receive

The study arrives in the admin worklist.

03

Assign

Admin reviews and assigns a sub-specialist.

04

Queue

The study lands in the radiologist's worklist.

05

Report

Radiologist reads in a DICOM viewer and finalises.

06

Deliver

The patient downloads the final report.

Everything a second-opinion clinic needs.

INTAKE

DICOM upload

From any source, with history via notes, links, previous reports and studies.

TRACKING

Study dashboard

Real-time tracking from Processing to Reported, with payment badges and role-specific workflows.

READING

Viewer ecosystem

Instant DICOM viewing with no external software; six viewers, browser and native.

REPORTING

Reporting engine

Your own modality-specific structured templates, with annotated key images in the final PDF.

BILLING

Payments

Razorpay for UPI, cards and netbanking; credits, refunds and top-ups in an INR or global wallet.

INTEGRATION

PACS integration

Connects to an existing Orthanc or DICOMweb PACS without duplicating data locally.

SERVICE

Support engine

A central desk for technical, billing and report queries, plus a knowledge base and chatbot.

SECURITY

Security & deployment

Multi-institution with data isolation; on-premise or cloud VM; token authentication, audit logs, encrypted PACS credentials.

Why choose ReVue

Faster turnaround

A new revenue stream

No dependency on multiple tools

Secured end to end

Scalable across geographies

Deployed for Ruby Hall Clinic, Pune, as its radiology second-opinion service.

Book a demo

See it on your own studies. We set up demos around the way your centre works.
